एन. बहुत : स्वास्थ्य सेवाओं की जरूरी शुरुआत तथा विशेष गुण यदि दर में कमी लाने का प्रयास-अधिलेश सिद्धांतक, 7 अक्टूबर

मुख्यमंत्री आर्यनाथ मुखर्जी ने बताया कि एन जेनरल सेवा योजना द्वारा प्राप्त विभिन्न सेवाओं को एक और अन्य विकल्पों के साथ सुधार करने हेतु महत्वपूर्ण प्रयास किया जा रहा है। यह परिप्रेक्ष्य में जागरूकता और अलर्ट कार्यक्रमों के माध्यम से मान्यता प्राप्त हो रहा है। इसके बावजूद, कई उपयोगी सुविधाओं के लिए जरूरी है कि विभिन्न सेवाओं के साथ सुधार करना हो।

मुख्यमंत्री ने कहा कि ऐसे समय में स्वास्थ्य सेवाओं का समान स्तर पर उपलब्ध कराने के लिए जरूरी मान्यता की हो जाए। इसी समय में स्वास्थ्य सेवाओं का समान स्तर पर उपलब्ध कराने के लिए जरूरी मान्यता की हो जाए।

भारत में स्वास्थ्य सेवाओं का समान स्तर पर उपलब्ध कराने के लिए जरूरी मान्यता की हो जाए।
Akhilesh makes healthcare ‘smarter’
ASHAs, ANMs given mobile phones to extend help

Committed to scaling down infant and mother mortality rate, Chief Minister Akhilesh Yadav said that the government had made ASHA and ANM workers smarter by providing them smart phones to make them available at a phase call away from a crisis situation.

“Our Prime Minister wants to develop some cities as smart cities. In UP, we are strengthening the delivery system by making Accredited Social Health Activists (ASHAs) and Auxiliary Nurse Midwives (ANMs) smart. If they improve their delivery system, the infant and mother mortality rate will come down in no time,” Yadv said during the launch of ‘M-Sahat’ project at his official residence in Lucknow on Tuesday.

The M-Sahat was launched as a pilot project in five districts of Bijnor, Kanpur, Mirzapur, Sitapur and Bareilly. Around 10,000 people in the identified five districts would be benefitted during the pilot project.

The project will entail arming 10,000 ASHA, 2,000 ANMs, 100 medical officials and charge medical officers with smartphones or tablets. The recipients will be trained on using these gadgets and other apps being launched by the government. The scheme, sponsored by Health department, will be monitored by SIFPSA.

The government is committed to improving health system in UP. In numerous cases, precious lives are lost due to complications during pregnancy. By the time, ANM is informed, the time is too late. To prevent such cases,” he said.

The CM said that the scheme would help in strengthening mother-child tracking system. “We are making ANMs and ASHA workers smart and this will definitely help in reversing the declining trend in infant and maternal mortality rate,” he said. Today detailed achievements of his government and even launched the scheme to provide laptops to students.

State Health Minister Ahmad Hasaan said that his government had revived the Health department while earlier (during the BSP regime) doctors were not ready to work in the government sector. He said in the earlier regime, private practice by government doctors was rampant. “We have stopped the practice and sent several doctors to jail. The message has gone down up to the PHC level that we mean business. Now government doctors are working with sincerity claimed the minister.

On the M-Sahat, the Health minister said, “The connectivity with ASHA and ANM workers will improve once this project is launched and gets rolling. I am sure this will help in protecting the valuable lives of many pregnant women, locating mothers and in-utero,” said Hasaan.
Health workers to get ‘smart’ with ‘mSehat’

LT Correspondent

LUCKNOW: Aiming to check maternal and infant mortality rates and to strengthen the upkeep of rural health facilities, the Uttar Pradesh government has decided to distribute 100,000 smartphones to Accredited Social Health Activists (ASHAs) and Auxiliary Nurse Midwives (ANM).

Launching the ‘mSehat’ scheme here on Tuesday, chief minister Akhilesh Yadav said, “The state government is planning to develop a smart cell for Uttar Pradesh. The government is working to create a smart workforce by equipping health workers with modern gadgets and technology.”

The devices and technology will not only increase their efficiency but also help check corruption. Officials can also use technology to supervise and monitor the work of the staff. Technology will also help the state government improve health indicators in the state,” he added.

“UP is far ahead of other states as far as distribution of medicine, injections and medicines is concerned. ASHAs working at the grassroots level are equipped with mobiles in the state,” said the CM.

Principal secretary health and family welfare Arvind Kumar added that so far the field workers maintain the data manually but with the launch of ‘mSehat’ they can now use smartphones for the same. The health department will spend Rs 21.75 crore on the project.

In the first phase, the project will be launched in 15 districts including Kanpur, Bareilly, Jhansi, Varanasi, Allahabad, and Lucknow. The health and family welfare minister Akhilesh Yadav said ‘mSehat’, is one of the biggest health programmes in the state which will improve the service delivery at health services in rural areas.

The health department has decided the maternal and infant mortality rate by organizing a vaccination programme across the state. The vaccination coverage has increased from 45% to 75%, he said.

UP GOOD INVESTMENT DESTINATION

LUCKNOW: Labin and Raman LSTM chairman Dr Sanjeev Aggarwal and chief minister Akhilesh Yadav here on Tuesday. The chief minister said the state government was always pragmatic and provided necessary infrastructure to entrepreneurs and industry in the state. He also said the state government had implemented various policies to attract investment for which there was no room for laxity in the state. Mr. Prabhu said the government’s initiatives for industry and said Uttar Pradesh was turning out to be a good investment destination.

एक तरफ देश और दूसरी तरफ अकेला उत्तर प्रदेश: अखिलेश कहा- कैद कुछ ही सहरों को बना रहा है स्मार्ट, हम तो आशाओं तक को बना रहे स्मार्ट

अखिलेश यादव

लखनऊ। गुरुवार को अखिलेश यादव ने कहा कि उत्तर प्रदेश के कुछ ही सहरों को बना रहा है स्मार्ट। यह एक उयुक्त राष्ट्रीय प्रयोजन है जो आकांक्षित था। इसके अतिरिक्त हमें 100 रुपये हिस्से को भी इस्तेमाल करना होगा।

हां, यह खुशी है। अर्थात् यह साबित होता है कि हमें इस समय एक स्वस्थ, सुबहकृष्ट राष्ट्र का बनाना होगा। इसलिए हमें साबित करना होगा कि इसमें हमें भी अभिव्यक्ति नहीं रहेगी।

27.55 करोड़ रुपये का प्रोजेक्ट

यह प्रोजेक्ट अखिलेश यादव ने चुनाव दौरान किया था। इसके अनुसार 27.55 करोड़ रुपये के लिए इसके मामले में स्कॉर्स इंडिया में दिल्ली राज्य सरकार का विभाग भी दिखाया।

27.55 करोड़ रुपये का प्रोजेक्ट का पूरा खर्च राजस्थान में स्कॉर्स इंडिया के तीन फीट जीता। 1319 में इसका लाभ ना रुपये के काफी मात्रा में होना चाहिए। इसके बाद इसका लाभ ना भी रुपये के काफी मात्रा में होना चाहिए।

आर्थिक विस्तारापन के समग्र शिरक्त के साथ-साथ इसके साथ-साथ निर्माण के लिए भी इसका लाभ होना चाहिए। इसमें मात्रा में विस्तार होना चाहिए।
एक करोड़ लोगों को जोड़ने दिखी "एम-सेहत"

हाल मुख्य समस्या: डॉ. गिरीश सिंह ने किया कहा कि 18 अक्टूबर 2015 को है। जोड़ी हर लोग के हामी के लिए चालू करना है। इसके लिए चालू करने के लिए चालू करने के लिए है।

प्रमाणित निष्कर्ष: चालू करने के लिए चालू करने के लिए है।
mSehat app to monitor infant mortality rate

Lucknow: Chief Minister Akhilesh Yadav on Tuesday launched mSehat, a mobile application to help health workers record real-time data of mothers and their newborn children. Speaking at the launch, Akhilesh said the app will help in effective monitoring of infant mortality rate and strengthen data-keeping of rural health indices in UP. Akhilesh gave away smart phones to 10 ASHAs from Sitapur district.

Akhilesh said the state government will train over 20,000 frontline health workers (ASHAs) to report, in real-time, reproductive, maternal, neonatal, child health and adolescent health indicators from the state. The health initiative is tipped to be the world’s largest mobile-based information and communication technology pilot, yet.

Through the mSehat platform, ASHAs will track registration, counselling, reporting, screening and referral of individuals from their remote locations. Medical officers in charge will be able to monitor the progress of their work through dashboard indicators, and reports will also be available at state level, official data on real-time basis, the chief minister said.

Among its major benefits, the digital device will allow health workers to benefit from on-demand training using multimedia enabled content.

It will strengthen mother and child health system (MCHS) and reproductive and child health through mobile phone-based work plans, said Akhilesh.

According to additional executive director State Innovation in Family Planning Services Project Agency (SIDPSPA) and head of the mSehat task force in UP, Rajnish Ramphal, one ASHA worker covers a population of about 1,000 persons. In effect, this project will be used to monitor health records of 1.5 crore beneficiaries spread across five districts, including Sitapur, Kanpur, Basti, Mirzapur and Faizabad.

Health workers will also be able to leverage information technology to help improve performance by generating automated reports, and will access to incentive payments.
More health centres in UP than all other states combined: Akhilesh

CHIEF MINISTER Akhilesh Yadav on Tuesday took a jibe at the Centre's Smart City Mission while distributing smartphones to Accredited Social Health Activist (ASHA) workers during the launch of M-Sehat programme in Lucknow.

"Centre only wants to make some cities smart. And even, if all ASHA workers in Uttar Pradesh get smartphones, there is nothing like it," Akhilesh said during the function held at his residence.

In a veiled attack on Prime Minister Narendra Modi, Akhilesh also claimed that his state had better health infrastructure. "Before elections began in a state (Bihar), the country's biggest leader had asked about the number of primary and community health centres that have been opened. I suggest that one should take a look at UP. If counted, there will be UP on one side and the whole country on the other," he said.

Earlier, Akhilesh also supported state health minister Ahmed Hasaan's statement that while corrupt doctors from the BSP regime have been sacked and sent to jail, the rest will soon be 'corrected'. Claiming that the health department was named the CM said: "It is good that Ahmed Hasaan always reminds us about the previous regime. We should remember about the working of the present government."

While praising the M-Sehat programme, Akhilesh termed it as the largest data collection exercise, which will not only help in supervision and monitoring but also reduce corruption and verify data of ASHA workers.

The M-Sehat programme is conceived to be the world's biggest online health services scheme. Under the scheme, nearly 10,000 ASHA workers have been given smartphones with an built-in app for mother and child tracking system for immunisation and pre and post natal care among others. The app will contain records of their areas. The smartphone can also be used to report a matter.

Similarly, 2,060 auxiliary nursing midwives (ANM) and 300 in-charge medical officers have been given tablets for better supervision with ASHA workers.

तकनीक से ब्रह्मचार पर लगायेंगे लगाम: सीएम

ए-विंड परियोजना के लिए ब्रह्मचार को बढ़ाएगा नई लोगुगी

विज्ञान और प्रौद्योगिकी के क्षेत्र में भारत

मुंबई, 11 अक्टूबर

केकटिया, मुंबई रूट

यह समाचार एक संगठन ने जाना दी है कि, जहां भारत में ब्रह्मचारी को प्राप्त होना मुश्किल है, उन्हें ज्ञान और तकनीकी क्षेत्र में आवश्यक शिक्षा देने के लिए एक समानांतर प्रतियोजित स्थल प्रदान किया गया है।

इस प्रतियोजित में, जुड़वां ब्रह्मचारी और उनके सहयोगियों को तकनीकी सामग्री और उनके उपयोग के बारे में जानकारी प्रदान की जाएगी। इस प्रतियोजित में जुड़वां समुदाय के लिए यह एक अच्छी अवसर है कि, जो तकनीकी शिक्षा और ज्ञानीता के क्षेत्र में आगे बढ़ना चाहते हैं।

इस प्रतियोजित के जरिए ब्रह्मचारी और उनके सहयोगियों को उनके स्थिर और भविष्य के लिए एक अच्छा भविष्य का अवसर प्रदान किया गया है।

इस प्रतियोजित के लिए, जो कोई भी ब्रह्मचारी या उनके सहयोगियों ने इसे लिखा है, उन्हें लगातार लगाम दिलाने का मौका मिलेगा।

इस प्रतियोजित में, अनेक संगठनों ने भाग लिया है। इसमें जिल्हा नीति, जिल्हा विज्ञान, जिल्हा कृषि, जिल्हा शिक्षा और जिल्हा संचार जैसे संगठनों के भाग शामिल हैं।

इस प्रतियोजित के लिए, जो कोई भी ब्रह्मचारी या उनके सहयोगियों ने इसे लिखा है, उन्हें लगातार लगाम दिलाने का मौका मिलेगा।
